

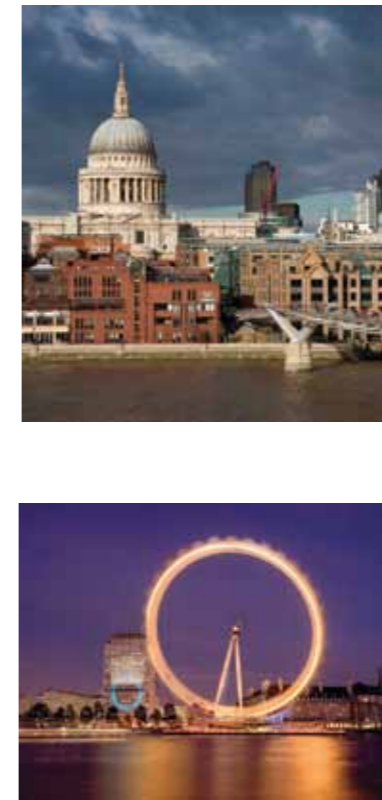

Photographic Printing Prices

For the discerning professional or amateur photographer, here is a system of photographic printing that will give you consistent results from your digital camera. No longer is it necessary to buy small prints from one supplier and large from another, our printer can cope with all from sizes 6"x4" up to 30"x40".

Files need to be supplied at the correct size at 254dpi and saved as RGB 8 bit Tiffs or Jpeg. There will be a charge if files need to be changed. Please call for set-up clarification.
